

IARU Internship @ ETH Zurich

The International Alliance of Research Universities (IARU) is a network of eleven international research-intensive universities from nine countries across the globe. Its member universities are the Australian National University, ETH Zurich, National University of Singapore, Peking University, University of California, Berkeley, University of Cambridge, University of Cape Town, University of Copenhagen, University of Oxford, The University of Tokyo and Yale University.

Host Faculty/Department	ETH Equal! (www.equal.ethz.ch)
Internship title	Gender Attainment Gaps in Higher Education
Duration of internship	17 October – 18 January, 40%
Supervisor/Mentor	Renate Schubert
Person to contact for more information	Renate Schubert, schubert@econ.gess.ethz.ch , +41 44 632 47 17
Internship Description	<p>In several IARU institutions a gender attainment gap is observable at different stages of higher education. In some institutions, the key factors responsible for the attainment gap are already studied in detail. The ultimate goal of such endeavors is to recommend measures to assure equal opportunities and equal success for male and female students.</p> <p>The intern is supposed to support the process of investigating into causes and of recommending measures. The intern will work at the office of ETH Equal! together with the head of the Equal Office, i.e. the Gender Delegate of ETH Zurich's President as well as one or two of Equal's permanent collaborators. Contacts with further researchers involved in attainment gap studies will be established.</p> <p>The intern's duties involve supporting the aforementioned research through literature reviews as well as through quantitative and qualitative data analyses (data from questionnaires and interviews). Furthermore, the intern will collect and assess data and measures related to the gender attainment gap in all IARU Universities.</p> <p>Requirements:</p> <ul style="list-style-type: none">- Highly motivated student in economics, social or political science (or related subjects).- Proficiency in quantitative data processing and analysis (i.e. SPSS or similar programme), experience in qualitative data processing- Ability to work independently- Strong communication and language skills, excellent English
Application deadline	7 July 2017

Application Criteria

To be eligible to apply for the IARU Internship @ ETH Zurich, you must be a student of ETH Zurich and have completed at least two full years of university study.

Application Process

Please submit your application with CV, letter of motivation (also listing your experience in quantitative and qualitative social science research) and references and forward it electronically to equal@sl.ethz.ch.

Shortlisted students will be contacted after the closing of the application deadline.
